

As a flight attendant and passenger, I am against the use of cell phones while inflight for the following reasons:

- * There is no hard evidence that cell phone use doesn't interfere with navigational instruments.
- * Cell phone use would enable terrorists to coordinate a plan of action more effectively.
- * The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations.
- * It would make an already tense cabin environment even more stressful.
